DEMPSEY TO FIGHT FOR \$400,000 PURSE

Kearns Announces That He Has Accepted Jim Coffroth's Offer.

BATTLE SCENE IN MEXICO

Contest Would Be Scheduled for 45 Rounds at Tia Juana, Near San Diego.

Los Anceles, Jan. 4 .- Jack Kearns, manager of Jack Dempsey, heavy-weight champion of the world, anounced here to-night that he had accepted an offer of a \$400,000 purse from James W. Coffroth for a fortyfive round fight between Dempsey and Georges Carpentier at Tia Juana, Lower

"It's up to Coffroth now to sign up Carpentier," said Kearns, "and I understood he has a representative, Charles Harvey of New York, in Europe now trying to do just that.

This is the most satisfactory offer we have had. We are willing to accept on a winner or loser basis, perhaps \$200,000 for the winner and \$100,000 for the loser. These details will be worked out later.

"Coffroth may not want the motion picture rights, but whether he does we will want a percentage of them and all other privileges."

Kearns's announcement was made after he had been asked if he would scept an offer to Dempsey of \$200,000 and a ten weeks theatrical engagement in Europe at \$5,000 a week, anounced in Chicago to-day by Charles Cochran, an English theatrical mag-

Coffroth is president of the Lower California Jockey Club at Tia Juana. The fight would be held at the racetrack. Tia Juana is just across the line from San Diego, Cal. The Governor of Lower California is said to have assured Coffroth of his support in the event the contest is to be held at Tia Juana.

Commenting on the Cochran offer, Kearns said: "I will not consider anything less than \$250,000, and his offer of \$5,000 a week does not interest me. Dempsey got \$15,000 a week in his heatrical engagement right here in America. If these European promoters want to get Dempsey for anything they'll have to pay double."

COCHRAN OFFERS \$200,000.

ilso Promises Dempsey Theatrical Contracts if He Accepts.

CHICAGO, Jan. 4 .- Charles B. Cochran he English boxing promoter, arrived here to-day. He said that he had not come here to meet Jack Kearns, manager of Jack Dempeey, but that he had sent a representative to California to alk with Kearns.

Cochran said that he had offered bempsey \$200,000, and mays he will varantee the champion ten weeks of heatrical engagements in England and rance at \$5,000 a week. He pot only us Carpentier's signature to a con-ract calling for \$105,000, but has adanced \$25,000 to the French champion

FULTON-WILLS MATCH REPORTED

Time Tells, and the Old Timers Are Eclipsed.

Time tells in sport—the watch and the years. Years pass and record of the minor leagues which were forced keep growing better. But still veterans will tell us that their heses of to suspend by the war are making plans the days of old were the greatest. It is unfortunate that in baseball and the days of old were the greatest. It is unfortunate that in baseball an boxing there is no measure by which to compare men-except the measure to come back to life. One of the strongest minors on the Pacific coast— the Northwestern League—had a reorof the mind. Time casts a halo. Reminiscence gains in the telling and th retelling. Old timers will tell us about their King Kelly, their Pop Ansor their Richardson, their Radbourne, "never were there any greater in never will there be their equal." Their Sullivan, their Jack Dempsey greatest of all time! But those branches of sport in which we have records show that we are making remarkable progress, that each year develops was a Class B organization, but now men better than those of other years. Baseball and boxing surely are making its members assert that the big gains in a great progress as other sports. Must we believe that the diamond and ring heroes of other days were in a class by themselves?

Fair minded veterans will concede that if the batsmen of the haloyou era of Anson had to face the kind of pitching which Ty Cobb and Babe Ruth had to face last season there would have been mighty few 300 A and Class B rating, are very easen-tial to the development of good young tial to the development of good young billiers among them. Cobb and Ruth had no lively ball to hit. They had to face the pitcher with that worthy only about sixty feet away, and pitch-league crop usually come from leagues of these classifications. They often de-the art and science of pitching. And they proved conclusively that never perfore had baseball players hit with even an approach to their effectives ness. In the ring too it is only fair to assume that men are gaining in the artifices of boxing-in cleverness, in general know how. From timesters who appeared at his league train going ahead, always and everywhere.
